Clean Water for the Best Sound

The quality of water used during the manufacturing process a major role in making high quality paper cones. Pure water springing forth from the beautiful natural environment in Japan is the foundation of the BMB sound.

Quality Assurance Test for All Components

We conduct a quality assurance test on every component of BMB speakers to ensure excellent sound quality.

Fine-tuned by Specialist

The quality of pulp used for manufacturing the speakers varies on a daily basis, so our experienced specialists fine-tune the pulp quality to make sure the BMB speakers can offer the best quality sound.
